

MENTORING PROJECT

<https://communicationmatters.org.uk/what-we-do/projects/mentoring-project/>

Mentoring is where an experienced person works with someone who is new to AAC. They help them with advice and support.

The Mentoring Project

We train AAC users so they can mentor young people.

We want people to gain Level 1 and Level 2 **qualifications** in mentoring.

A qualification is where you have passed a certain level of training.

Update Summer 2019

We have been busy talking to lots of people about the project.

We have started a Level 1 mentoring workshop in Manchester.

There could be other workshops in Personal and Social Skills, Counselling and Mental Health.

The workshops are for disabled people only.

Update February 2019

We had a project in Manchester in 2017. This was a mentoring project for 6 young AAC users.

The project went well. We are now doing it all over the UK.
